

The Creative Age Festival was first held in 2008. It is a celebration of creative aging that encourages seniors to become more involved in arts programs – drama, music, visual arts, literary arts, and dance; celebrates and recognizes the artistic contributions of seniors in all areas of the arts; and raises public awareness of the benefits to health and well-being for older adults acquired through engagement in creative activities.

WRITING: 7 POINT PLOTTING

12:30—3:30 pm

Fee: \$20 INSTRUCTOR: ANN MARSTON

They say everyone has a story to tell. The problem is that many people don't know where to start, or how to keep the story moving once started. With this simple plan, you can plot anything from a short story to a novel, be it romance, mystery, science fiction, fantasy, or mainstream. This is NOT a formula, but a skeleton to build a story on. When you look around, you see thousands of very different people, but if you stripped everyone down to the basics, you'd see pretty much the same skeleton. The 7 Point Plotting system is the skeleton. The stories you build on them are as different as the people who write them.

WRITING: WORLD BUILDING

12:30—3:30 pm

Fee: \$20 INSTRUCTOR: ANN MARSTON

One of the best things about writing a story or a novel is building a world to put your story into. If you're writing a contemporary story, you need less world building than if you're writing a science fiction story, or a fantasy, or even an historical tale. This brief seminar will show you what goes into building a world. Before you can build a world from scratch, so to speak, you need to know where to get a pound of scratch. Right here is where. We'll talk about everything that goes into building a believable world, and have a lot of fun doing it.

SKIT WITS! - Part 2*
